

ANNUAL INDEX

The index consists of two parts: subject and author. Both are listed alphabetically, with the reference giving first the issue, then the page number, and finally the type of article. For example, checking under "discipline" gives the reference "Balancing openness with defendants' rights, J/A, 62-63, F." This indicates the article is in the July/August issue on page 62-63, as a feature article.
