

[AWARDS PROGRAM]

ONTARIO PROFESSIONAL ENGINEERS AWARDS CELEBRATE ENGINEERING ACHIEVEMENT

By Olivera Tasic

Sixty-five years have passed since PEO council awarded its first Gold Medal to C.D. Howe, P.Eng., to recognize his outstanding leadership and contributions to the Canadian war effort during the Second World War. More recently, Gold Medals were awarded in 2007 to Anna (Anne) Sado, P.Eng., president, George Brown College; in 2008 to Walter Curlook, PhD, P.Eng., management consultant, distinguished adjunct professor, University of Toronto; in 2009 to the late Victor Milligan, P.Eng., consultant, Golder Associates; in 2010 to Monique Frize, PhD, P.Eng., FCAE, FEC, professor emeritus, School of Information Technology and Engineering, University of Ottawa, and distinguished professor, systems and computer engineering, Carleton University, and in 2011 to Michael E. Charles, PhD, P.Eng., FCAE, professor emeritus and dean emeritus, faculty of applied science and engineering, University of Toronto.

IN JUNE 2001, PEO council committed to work with the Ontario Society of Professional Engineers (OSPE) to manage jointly what had been PEO's professional awards program. The Ontario Professional Engineers Awards gala is now held annually in November.

PEO's other awards program, the Order of Honour service awards, is presented annually during the PEO annual general meeting in May.

The Ontario Professional Engineers Awards program comprises three awards.

The Gold Medal recognizes conscientious commitment to public service, technical excellence and outstanding professional leadership. It is the program's premier award.

The Engineering Medal recognizes professional engineers who have improved quality of life through the ingenious application of their engineering skills. Engineering Medals are awarded in several categories:

- Engineering Excellence—recognizing overall excellence in the practice of engineering, where the innovative application of engineering principles has solved a unique problem or produced above-average results;
- Research and Development—for developing new and useful applica-

- tions, or improving engineering knowledge or applied science, or discovering or extending any of the engineering or natural sciences;
- Management—for the management and direction of above-average engineering projects or highly successful enterprises. Recipients are PEO members who have contributed significantly to achieving excellence in engineering, primarily through their management skills;
- Entrepreneurship—for applying new technologies that have enabled new

companies to get started, and/or assisted established companies to grow in new directions. Those who earn this award have demonstrated the initiative, energy and spirit it takes to seek out, promote and foster new ideas; and

- Young Engineer—for outstanding engineers under the age of 35, who have made exceptional achievements in their chosen fields. This award is given to those who have demonstrated excellence not only in their engineering careers, but also in community and professional participation.

The Citizenship Award recognizes community service in two categories, for:

- activities for society outside of an engineering context; and/or
- activities for social betterment within an engineering context (e.g. extensive voluntary involvement with standards-setting groups).

CALL FOR NOMINATIONS

The Ontario Professional Engineers Awards program is administered by an Awards Committee made up of volunteers from PEO and OSPE. The nomination deadline for the 2012 Ontario Professional Engineers Awards is February 24, 2012. **Σ**

KNOW ANY PROFESSIONAL ENGINEERS WHO DESERVE A MEDAL?

NOMINATE THEM FOR A 2012 ONTARIO PROFESSIONAL ENGINEERS AWARD.

The Ontario Professional Engineers Awards program recognizes excellence across a broad range of engineering endeavours, including innovation, professional leadership and entrepreneurship, as well as significant contributions to society in general.

Ensure that professional engineers who have done outstanding work get the recognition they deserve. Everything needed can be found on PEO's website—including descriptions of the awards, their categories, nomination criteria, a description of the points system, terms of reference and a nomination form.
