

**To:** Registered candidates that will write the April 7, 2018 Professional Practice Examination (PPE)  
**From:** Exam Centre  
**Date:** April 7, 2018  
**Subject:** **PLEASE READ: FINAL IMPORTANT INFORMATION REGARDING THE WRITING OF THE PPE**

The Professional Practice Examination (PPE) will be held simultaneously at all examination centres. It is scheduled to begin at 2:00 p.m. for a three-hour duration, ending at 5:00 p.m. Candidates are advised to arrive at the assembly area outside the exam room at least 15 minutes before the starting time to consult the seating list, etc. **Candidates who arrive late for the exam will be admitted up to one-half hour after the start, but no time extension will be allowed. No candidate may leave the exam room within the first half-hour of the exam period. Candidates are responsible for finding the location centre and arriving on time to write the PPE exam, including during bad weather. Candidates should check PEO's website closer to the exam date to confirm the location information is still correct in case there was a change to the site where you need to go and write the PPE.**

**Please note candidates must present one piece of recent photo identification at the examination (e.g. driver's licence, current passport, health card with picture). This photo identification should be placed on the candidate's desk in full view of the invigilators during the examination. No handbags, briefcases, cellular telephones, pagers, palm organizers, books or similar items are permitted for the duration of the examination. Make sure if you have any of these items with you that they are powered off. Phones not powered off ie. ringing/buzzing will be removed by the proctor and can be picked-up at the end of the exam session. Proctors will not be responsible for damaged or lost phones. You will be prevented from writing the PPE if these items are activated. Please note if required during the exam period only one washroom break (or one break for personal reasons) is allowed alert the proctor in charge and the break cannot be more than 2-5 minutes the proctor will indicate on the attendance sheet that you left the exam room briefly.**

**Candidates who have written the PPE at another Association/Order should contact PEO's Examinations Centre before writing this exam. PEO does not accept OACETT's PPE.**

## **2. Advice to Candidates**

**Important that you know your PEO file number before you go to the site to write your exam since you need to record your PEO file number on your written booklet and envelope.**

- The PPE comes in two parts: Part A (Ethics) and Part B (Law). Both parts are handed out at the beginning of the exam period. Candidates may attempt either part first. Please endeavour to divide your time accordingly. Good time management is crucial to complete the two parts of the exam in the allotted time period. You should allow yourself no less than 90 minutes for each (Part A or Part B) part of the exam.
- **All four questions constitute a complete paper for Part A and B of the PPE, there is no choice question. All four questions in Part A and Part B must be answered for a complete paper. Each question is worth 25 marks totaling 100 marks and 50 marks are required for each part to pass. The marking of questions will be based not only on academic content, but also on legibility and the ability to express yourself clearly and correctly in the English language. When the result decision is received it will be a pass or fail letter no marks are awarded.**
- Applicants are encouraged to write in ink (ballpoint) rather than pencil since the former is easier to read. If the candidate chooses to use a pencil, he or she must ensure that it is legible and clear. The overall presentation, including ability in written expression, legibility and neatness, will exemplify a measure of professionalism.
- If a candidate believes that there is an error on the exam, typographical or otherwise, the candidate must state an assumption regarding the error and continue with the exam.
  - **Put your comments directly to the attention of the examiner in your answer booklet. No comments will be accepted after the exam period.**
- Complete carefully the outside cover of your exam booklet. If you use more than one booklet, number each one as follows: 1 of 3, 2 of 3, and so on. **Remember to insert the Part A answer booklet(s) in the Part A envelope and the Part B answer booklet(s) in the Part B envelope.**
- Read the paper through, including its title page; make any notes that occur to you on the left-hand (unruled) page of the exam booklet. Identify your rough work on the page by the appropriate question number.
- Start with the question you know best. Re-read it carefully to ensure that you understand it. Identify it by its number.

The sequence in which you attempt questions is up to you.

- Budget your time. Answer the full number of questions that are to be attempted (four questions for each Part A and Part B exam). Spare time should be devoted to a review. **Do not answer only three of the four questions on each part of the PPE since more marks can be given by the examiner by answering four questions rather than perfecting three questions. Each question is worth a total of 25 marks each.**

### 3. List of Aids Permitted

The Professional Practice Examination (PPE) is a "**CLOSED BOOK**" examination. No aids are permitted except excerpts from Regulation 941 --- i.e. the Definition of Professional Misconduct/Code of Ethics (Sections 72 and 77) – which will be supplied at the examination. **Dictionaries are not permitted.** It is to the candidates' advantage to make reference in their responses to the proper codes it shows the examiner you understand the concepts.

### 4. Location of Exam Centres and Rooms

See below for exam location. You should check the website closer to the exam date to confirm the location is still correct since sites do change.

### 5. Examination Results

- The PPE results will be mailed on **June 12, 2018** (45 **working** days after the exam). **Results will not be communicated by telephone, e-mail, fax or in person.** If after 10 business days you have yet to receive your PPE results contact the Exam Centre and a scanned copy will be issued.
- Candidates as licence applicants are expected to demonstrate conversance with the subject matter of both Part A and Part B of the PPE. Consequently, a candidate who performs well on one part and fails the other will be assigned a "Fail" letter. However, a candidate will be permitted to re-write only the failed part on his or her next attempt. One and one-half (1 1/2) hours will be allotted for the writing of Part A or Part B. The starting time for candidates writing only one Part of the PPE is from 2:00 p.m. until 3:30 p.m. Candidates that fail both parts of the exam must re-write both parts at their next attempt. A "PASS" is 50% on both parts. Note, if you fail the PPE three times, permission by the Committee will be granted to write a 4<sup>th</sup> and final chance with this current file but not before one year later from the time your 3<sup>rd</sup> failure occurred and you need to submit two sample responses from past exams by email at least 3 weeks before writing for a fourth time to be reviewed by PEO to determine if you are ready to write the PPE again. Should you fail for a fourth time your file will be closed for poor performance and you can re-apply again to PEO in future when you have time to pursue licensure.
- **A candidate has the right to request a re-read of a failed PPE exam. The non-refundable fee associated is \$275.00. A re-read request must be submitted within 30 days after receipt of results and the fee paid.** The re-read decision is the final result letter issued that will indicate pass or fail no grade will be provided and no further review will be granted for this failed exam after the re-read process is completed. Also, if you request a re-read of your failed PPE exam you cannot register to write the PPE for the next sitting. If you do request a re-read please contact the Exam Centre two weeks after submission of payment if you have not received a confirmation regarding your re-read request to ensure it was received and processed.
- Marked exams are not returned to candidates, nor are the answers available for any questions. If you do receive a failed letter you can contact the Exam Centre for additional information regarding your result at [exams@peo.on.ca](mailto:exams@peo.on.ca).

### 6. Leaving the PPE without Writing

Candidates who appear at the examination and then decide they do not wish to write must sign the examination booklets for Part A and Part B separately, and place them in the appropriate envelopes provided. The outside of each envelope must also be signed and handed to the invigilator together with the question papers. **Such applicants are given a mark of zero for the examination.**

### 7. No Show

Candidates who apply and who do not attend the PPE sitting for whatever reason will be marked "**No Show**". They will forfeit the examination fee, i.e., **No Refund/Credit or transferred to the next sitting.** **Please refer to the contractual agreement on the application form. If you were sent a reminder letter with your PPE registration form it is important to contact the Exam Centre to discuss your file status since the file may close for time expiration and you will be required to re-apply and pay the application fee to join PEO again.**
