## Building for the future

The Ontario Professional Engineers Foundation for Education provides scholarships to encourage engineering students to pursue careers in the profession. Our aim is to reinforce high standards of professional competence through rewarding achievement and giving students an understanding of the traditional values of the profession so that they can accept the responsibilities of becoming professional engineers.

We are a non-profit, charitable organization governed by an elected Board of Directors. The scholarships are financed through donations from Ontario professional engineers.

Through the Benevolent Fund, the Foundation provides financial assistance to professional engineers in extenuating circumstances.

The Foundation also supports an Engineer-In-Residence initiative that provides volunteer engineers to support science and mathematics curriculum in schools across Ontario.

Please include the Foundation in your arrangements for planned giving this year. Just think of the difference a \$35 donation could make.
