

ANNUAL INDEX

The index consists of two parts: subject and author. Both are listed alphabetically, with the reference giving first the issue, then the page number, and finally the type of article. For example, checking under "building code" gives the reference, "A simple solution, **M/A**, 52, L." This indicates that in the March/April issue on page 52, there is a letter about the building code.

DID YOU KNOW?

Licence holders looking to reinstate their licences are subject to rules under Regulation 941.

If you have resigned your licence or it has been cancelled for nonpayment of fees, there is a graduated reinstatement system in place. Fees and obligations increase based on the length of time your licence has been cancelled.

For full details, see *Reinstatement Requirements—An Information Guide* under Reinstatements in the Forms & Publications section of www.peo.on.ca.
