North Bay Chapter

Student Outreach Programs

Student's Night

Free event held annually in November for high school students at the Davedi Club. The event includes presentations by and supper with local engineering professionals. For more information contact Donovan Rainbow at d.rainbow@hotmail.ca.

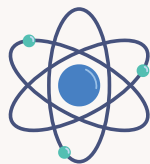

Bridge Building

Event for grades 4 to 12 typically held in the spring. Bridge building kits are provided ahead of time for free (or subsidized for schools wishing to send projects from multiple classes). Prizes are available. For more information, contact Bobby Doroudiani at bobby.doroudiani@alumni.utoronto.ca.

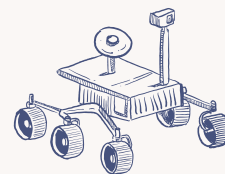

Scholarships

One \$1500 scholarship is awarded annually to students within the PEO North Bay Chapter area who are accepted into a recognized engineering program at a Canadian University. For more information contact Dave Boogaart at northbaychapterpeoevents@gmail.com

North Bay Regional Science Fair

Grades 1 to 6 can participate in Science of the Wall (research project presented on bristol board). Grades 7 to 12 present their Project to a series of judges on Fair Day, typically held in March or April. Prizes are available. For more information, visit www.NBRSF.com.

FIRST Robotics Team 1305

For high school aged students. The team competes internationally and does community outreach all year round. 1305 promotes engineering and business, as well as hands-on exposure to trades and other professions. The team accepts new members at any time. 1305 also sponsors and mentors Lego teams. For more information check out www.team1305.org
