CANDIDATE STATEMENT

To achieve a sustainable future of self-regulation for our profession, Darla's priorities include:

1. Good governance
2. Working together to protect the public interest
3. Leadership in engineering

"I believe in building a sustainable future of self-regulation for our profession. To achieve this, it will be critical to work with our members (license holders), chapter representatives, fellow Councillors and professional partners. As Vice President, I will focus on effective and transparent governance. Together we can deliver a clear message of engineering leadership while serving and protecting the public interest."

~ Darla Campbell, P.Eng.

Candidate for PEO Vice President
