

**Darla Campbell, P.Eng.**

**Candidate for PEO Vice President**

**Proven Leadership ~ Strategic Thinking ~ Collaborative Approach**

Darla Campbell brings proven leadership experience, thinks strategically about the challenges ahead and considers the big picture and the long term. Darla Campbell works with Dillon Consulting Limited in the role of Sustainability and Asset Management Specialist. Previously she was the executive director of the Ontario Coalition for Sustainable Infrastructure (OCSI) and project manager with the Ontario Clean Water Agency.

The following endorsement is personal and does not reflect or represent the endorsement of PEO Council, a PEO chapter or committee or any organization with which an individual providing an endorsement is affiliated.

*“I have worked with Darla Campbell as a committee member when she was the chair of the Government Liaison Committee of PEO and the Chair of the Strategy, Policy and Innovation Committee of the Canadian National Exhibition Association.*

*I always found that Darla was well prepared and organized for each meeting that she was chairing. She had an excellent grasp of issues and was very capable in communicating a vision and way forward for success. She did this in a collaborative manner that was always very respectful and appreciative of comments made at meetings that brought out the best in team members.*

*Darla is a hard working dedicated leader who is needed to help PEO to build upon its current strengths and to address current PEO shortcoming that could allow the PEO to be aimed toward being a world class regulator.*

*I encourage you to vote for Darla Campbell.”*
