

VOTE Nick Colucci, P. Eng. For 2020 President-Elect

MY GOALS AS PRESIDENT-ELECT ARE:

1. Guarantee the continued viability of Chapters by making them more relevant as part of the regulatory practice.
2. Continue the Government Liaison Program as a required connection between the Government and PEO.
3. Implement the recommendations of the regulatory review in a thoughtful manner that will ensure the identity of PEO as a premier regulator is not lost.
4. Propose that fee increases are geared to inflation to guarantee the future viability of PEO as a regulator and to avoid large jumps in our fees in the future.
5. Guarantee that PEO has a BALANCED budget by ensuring that all staff and volunteers are concentrating on PEO's core values and mandates.
6. Revisit the PEAK program and the idea of continued professional development to meet the request of the government to have mandatory continued professional development.
7. Reduce the experience requirement for graduates from 4 years to 2 years to greater influence the regulation of our profession.
8. Create a Committee of Past Presidents that will be maintain the corporate history of PEO.
9. Better manage the relationship between PEO and OSPE with the goal of having every PEO member also a member of OSPE.
10. Concentrate our enforcement efforts where there is the highest need by creating a yearly "blitz" enforcement effort.

Please Vote! Share our concerns with your P. Eng. friends, and ask them to vote as well.
