

Darla Campbell, P.Eng.

Candidate for PEO Vice President

Proven Leadership ~ Strategic Thinking ~ Collaborative Approach

Through this campaign I have visited chapters across the province including:

- Oakville
- Lake Ontario
- Scarborough
- Chatham-Kent
- Grand River
- Brantford and
- Kingston (Feb 20).

What I've learned in the conversations with P.Eng.s across the province is invaluable to me as a colleague and as a leader. I've listened to your ideas, recommendations and observations. It's clear that you care about the profession as much as I do.

Darla Campbell brings proven leadership experience, thinks strategically about the challenges ahead considering the big picture and the long term. Her leadership style is a collaborative approach. Her focus is governance, working together and engineering leadership.

"Darla has an excellent grasp of issues and is capable of communicating a way forward for success. She does this in a collaborative manner that is very respectful and appreciative of comments made at meetings that brings out the best in team members.

Darla is a hard working dedicated leader who is needed to help PEO to build upon its current strengths and to address current PEO shortcoming that could allow the PEO to be aimed toward being a world class regulator.

I encourage you to vote for Darla Campbell."

~ Jim Chisholm, M.Eng., P.Eng, FEC, Former Chair of the West Toronto Chapter of the PEO, Former Vice President of the Professional Engineers of the Government of Ontario (PEGO) and current Board Member of the OSPE Board
