

I am running for Eastern Regional Councillor and I believe that PEO can and should do better. I believe in strong and effective engineering regulation. I thank you for your time and hope that if you have not voted yet, that you do so. Every vote counts. I have not promised to make broad sweeping changes, but I do promise to work to change PEO for the better. Vote for me for effective change and leadership.

If you are concerned with what you have seen me post, or what others are saying, I encourage you to reach out to me via [Facebook](#) and [Linked In](#). I can also be reached at [cchiddle.erc@gmail.com](mailto:cchiddle.erc@gmail.com)

I believe many of PEOs programs need to be reviewed and significant changes made. Many have mentioned that we need to look at Discipline and Enforcement. I agree – I believe we need to strengthen both of those areas, while being fiscally responsible. We are not the only regulator that has these functions and we can learn from others on where we can make improvements.

I believe the application process to become a P. Eng. needs to be reviewed, modernized and made better. The world of Engineering is evolving rapidly, and we need to keep pace. PEO needs to move away from paper applications and move into the digital era.

I believe PEO needs to review all committees, working groups and subcommittees to ensure they are meeting their mandates and are relevant to regulatory work. At the same time, PEO needs to review and clarify the roles of council, staff and Chapters.

I look forward to working with PEO Council and Staff to see the necessary changes implemented. I believe as Councillor, I would be able to make fact-based decisions, for the protection of the public.
