

VOTE Nick Colucci, P. Eng. For 2020 President-Elect

This is my third and final e-blast to the members during this election. I would like to express the deepest of gratitude for all of the support I have received from the members of PEO. I am deeply humbled by the endorsement and positive feedback I have received over the campaign.

I would also like to thank the fellow candidates in this election for their professional and thoughtful conduct throughout the election ... **THANK YOU!**

Now for an important message and goal! Below is the voter turnout as of February 7, 2020. Currently the number of votes are tracking to be less than the 12.43% voter turnout for 2019. I would urge each and every one of you to **VOTE** and tell each of your P. Eng. associates to also vote in the election. Let's see if we can get the voter turnout to **20%** this year!

2020 Voter Turnout

A FEW OF MY GOALS AS 2020 PRESIDENT-ELECT ARE:

- ✓ Implement the recommendations of the regulatory review to ensure the identity of PEO as a premier regulator is not lost.
- ✓ Call for an immediate referendum on PEAK.
- ✓ Concentrate our enforcement efforts with “blitz” enforcement effort.
