

Fellow Members, my name is **Christopher Chahine** and I am running for East Central Regional Councillor 2021. My commitments to you and PEO are as follows:

- ✓ Against PEAK and Mandatory CPD
- ✓ Passionate about Self-Regulation and Responsible Governance
- ✓ Focus on Enforcement
- ✓ Better Control over PEO Spending with Financial Accountability, Transparency and Engaging Members
- ✓ Protect the Public Interest
- ✓ Enhance P.Eng Value
- ✓ Support PEO Chapters
- ✓ Experienced Leadership I am prepared and passionate to devote myself to restore and enhance the Prestige, Relevance and Empowerment of our current and future Engineers

STOP the Erosion of Self- Governance

PEO is consistently being pulled in several directions by external bodies and reports. PEO is a self-regulated organization and needs to stand its ground and stand up for its members NOT on top of its members

Get Rid of PEAK

PEO members do not need more time and money taken away from them just to appease external bodies. Perfect practice makes perfect. If PEAK is continuously pushed through, it's the P. Eng's that suffer the most

Enhance the P.Eng Value

Engineering jobs are being taken away by Non-Engineers! We all have a duty to protect the public interest!

The bottom line is that **PEO doesn't WORK unless it works for its MEMBERS** and positive change starts with who's representing you at PEO Council!

Vote Christopher Chahine, P.Eng PMP, SSBBP
