

The deadline for voting is fast approaching. If you have not voted yet and you care about the engineering profession, **VOTE**. Make your voice count and shape the path PEO takes. If you don't vote you are relinquishing the right that all PEO members have.

PEO will continue facing enormous challenges in the near future. If the appropriate actions are not implemented PEO will become irrelevant to the Province and to its members, PEO has been slow in reacting and adapting to the changes around us. The current pandemic has only made more apparent the urgent need to modernize the way PEO functions. Council is fundamental in developing policy and providing direction on how PEO is organized and functions. Council members must be well informed and their decisions must make PEO proceed in the right direction in meeting its mandate of protecting the public interest.

I am asking for your support in this year's PEO election. I offer my extensive experience acquired through many years of volunteering for PEO and other entities. I have the knowledge and understanding to help PEO advance in its mandate to protect the public interest, ensuring practitioners safeguard life, health, property, economic interests, public welfare and the environment.

Vote David Kiguel for East Central Regional Councillor. Make your vote count. Your vote matters.
