

**G. Gordon M. Sterling
Engineering Intern
Award**
For Leadership Development

Application Guidelines/Form

Introduction

This annual award, which may be given to one or more recipients, recognizes registered engineering interns who have been involved in a leadership capacity with the engineering profession and who wish to pursue continuing education towards further leadership development. Award recipients must be willing to transfer the knowledge attained through the continuing education to benefit the members or future members of Professional Engineers Ontario (PEO). Within one year of receipt of the award, recipients will be required to provide written feedback to the Sterling Award Selection Committee on the completed continuing education course, indicating how the transfer of knowledge was put into effect.

The award(s) will have a total value of up to \$3,500 per year. Applications may be made at any time but will be considered annually. The deadline is the second Friday in October of each year.

Eligibility

- Applicants must be engineering interns in good standing with PEO, who must either become licensed or continue in PEO's Engineering Intern Training (EIT) program throughout their leadership development course.
- Awardees must attend a leadership development course that meets approved criteria and is above and beyond courses available through or paid by their employers.
- Approved courses would provide non-technical leadership development related to industry, public administration or policy development, and result in a certificate or diploma by a recognized institution, such as a university or management training institute.
- Applications must include references from two professional engineers in good standing, who are members of a provincial or territorial association in Canada. Referees must complete the "Referee Form", ensuring the applicant's engineering intern number is included, and forward it directly to the G. Gordon M. Sterling Engineering Intern Award Selection Committee.

Application Requirements (use **only** application form available on PEO website). Applications must be submitted electronically. Include the following with your application. Incomplete applications will not be accepted.

- Provide the names of two professional engineers, who are members in good standing in a Canadian province or territory, who will be providing references (using the Referee Form) directly to the Selection Committee. Ensure your referees state your engineering intern number on their correspondence. The referee can't be a family member.
- Provide letters verifying your volunteer involvement in engineering professional activities.
- Provide a course outline of the intended continuing education program, together with a breakdown of its associated costs.
- Provide a copy of your resume/CV to support your application.
- The Application package is limited to a maximum of 20 pages, including application form. All materials must be submitted unbound (no staples), single sided, and in 8.5" x 11" letter size.

Information

Complete information about the G. Gordon M. Sterling Engineering Intern Award is available from the PEO website at www.peo.on.ca, or by contacting: sterlingaward@peo.on.ca or by phone: 416-224-1100 or 1-800-339-3716, ext. 1210.

Application Form—deadline is the second Friday in October each year
