

The reason I am running for **President-Elect** (Chair) of PEO Council is to ensure PEO keeps moving forward. My experience from being on Council for 6 years as an Ontario Lieutenant Governor Appointee (LGA) plus my current role as your Vice-President Elect, as **President-Elect**, I will ensure that Council continues to embrace the “**#NewWay**” which is just taking hold.

Even given the challenges every organization has faced during this global pandemic; PEO Council has made tremendous progress over the last four years compared to my earlier years on Council:

1) Unanimous Council acceptance of all recommendations from the “[External Regulatory Performance Review](#)” which indicated PEO is has much work to do.

2) New Governance Road Map adopted and significant governance improvements successfully implemented resulting in **#BetterCouncilDecisionMaking**

3) New CEO & Registrar and Senior Management Team in place; charged with implementation of a Transformational Change Vision for PEO to enhanced organizational effectiveness aligned with PEO Council’s newly adopted [strategic plan](#). **#BetterRegulatoryPerformance**

4) Objective “Activity Filter Tool” unanimously adopted by Council with first pass of all PEO activities through this filter; now [categorized](#) as “Regulatory”, “Governance” or “Neither”.
#ClarityOfPurpose

AMAZING positive progress for PEO! A strong engineering regulator, focusing on outcomes which protect the public interest, will equal a strong engineering profession. You can't expect change if nothing changes. Our practitioners are smart and see the need for change at PEO. This is what I am counting on.

Please vote for Marilyn Spink, P.Eng., Vice-President Elect PEO Council as your **PEO President-Elect** for 2022-23 and vote for a **#NewWay**
