

Tim Kirkby P.Eng., Candidate for Eastern Region- Acclaimed!

Additionally, I volunteer with:

Professional Institute of the Public Service (Pipsc)

National Group President of the Federal Government Engineering, Architecture and Land Surveyors Bargaining Unit. The Federal Government Engineers are deeply involved within the Eastern Region.

In my opinion all Engineers licensed with PEO as well as Provincial and Municipal engineers are appreciated and respected.

✓ P.E.O. Councillor 2016-2018

✓ Council Composition Task Force 2016-2017

✓ Discipline Committee 2016-2021

✓ Government Liaison Committee 2017-2019

✓ Human Resource Committee 2017-2018

✓ Finance Committee 2018-2019 and Investment Sub Committee Chair

✓ Public Information Task Force 2017-2019

✓ Engineers Canada verification audits 2018-2019 at RMC and Lakehead University

✓ Additionally I participate with the Upper Canada Chapter, 7 years as Chapter Chair

My priorities include:

- Licensing process– Application, registration, and digitizing.
- Chapter System reform– Support and recognize their regulatory role, council, and local presence roles. Correct, improve, support the chapter treasurers management, use of chapter funds by listening to chapters and addressing the new imposed barriers.
- PEO role as a regulator and governance review and communication.
- To be heard, to lead, to present thinking on advocacy.

I am pleased and honoured to be acclaimed for Eastern Region Councillor and have already communicated with the seven Eastern Region Chapters.

We invested our lives in Engineering schools, jobs and supported our families and loved ones. Voting is simply the icing on the cake. Vote for a candidate that understands and supports all licensed Engineers, chapters and volunteers.

I have many messages of support and I thank you.

Tim Kirkby, P.Eng., F.E.C. Eastern Region Councillor- Acclaimed 2022.
