

Hello all;

The polls are open. You now have a difficult choice. There is however only one candidate with the experience within PEO to get the job done. This is where I feel I have an edge. Those of you who know me know that I am a problem solver. When given a challenge, I attack it passionately until results are seen and I know how to get results on council. My record shows this, both within the chapters, on council, and with the Anti-Racism Exploratory Working Group which has identified, and is putting forward solutions to address issues of systemic racism within PEO. There are some new problems that I'd like to address.

First, council's new governance model, although more efficient, brings with it some challenges. Separating council's activities from operations has made it more difficult for you, to have your concerns heard. I want to give you your voice back.

Second, I have always said that the chapters are key to the success of PEO. I want to ensure that their valuable contributions are not overlooked. With the changes council has made however the role of chapters is now in question. I plan to work with the chapters to help develop their new roles as well as to address the overarching problems of member engagement and the perceived value of the P.Eng License which are threatening our relevance as a regulator.

To accomplish these goals, I need your help. I ask you not only to vote for me, but to encourage your Engineering colleagues to do so as well.

I invite you to leave me a message at my facebook page @WK4PEOWRC and I will be happy to discuss these or any other issue you feel relevant.

Thank you

Wayne Kershaw, P.Eng, FEC

Candidate for Western Regional Councillor
