

PEO Council Elections – Why I’m Asking for Your Support

PEO is navigating a period of significant change as it modernizes its processes, strengthens governance and responds to an evolving profession. I am seeking re-election to Council to continue providing a steady, evidence-based voice focused on PEO’s core responsibility: protecting the public interest through fair, effective and accountable regulation.

After almost 20 years of volunteering at PEO, I bring no personal agenda. While advocacy has its place, I believe Council’s primary role is to govern fairly and consistently for all members, guided by evidence, strong process, and our fiduciary duty to protect the public interest. I am open-minded, collaborative, and prepared to change course when data and evidence support a better outcome. In my experience, strong governance depends on informed debate, respectful dialogue, and clear accountability.

During my time on Council, I have taken my responsibility seriously - reviewing materials thoroughly, participating actively in discussions, and voting on all matters before me. I am proud to have supported meaningful progress, including the development of PEO’s Strategic Plan and ongoing improvements to licensing, governance, and regulatory oversight.

If re-elected, I will continue to focus on practical, forward-looking priorities, including:

- Advancing EIT 2.0 to better bridge the gap between graduation and licensure
- Strengthening targeted, meaningful stakeholder engagement
- Leveraging Chapters as strategic partners and sources of professional insight
- Supporting fair and equitable licensing practices, including emerging and non-traditional pathways
- Encouraging continuous improvement across licensing, standards, governance, and financial processes

PEO needs thoughtful, disciplined leadership – leadership that listens, evaluates evidence and acts in the public interest. I would be honoured to continue serving on Council and ask for your support.

Let’s keep PEO focused, modern, and accountable.
