designation since 2015  
Project Management Institute, PMP designation Since 2020  
Municipal Engineers Association Member

**Years of registration in Ontario:** 16.00

**Candidate statement:**

I am running for Councillor-at-Large because I believe PEO must continue to evolve to meet the needs of its members and the public. My passion for the profession has guided 16 years of continuous volunteer service, where I have held nearly every leadership role in the Brampton Chapter and contributed provincially through the Chapters Procedures Manual Advisory Group.

A key priority for me is to reinstate and strengthen the EIT program. This program is vital for supporting new graduates, helping them into licensure, and ensuring the next generation of engineers feels connected to the profession. Importantly, it should also enable chapters to recruit volunteers, giving EITs meaningful opportunities to contribute to outreach, mentorship, and technical activities.

I bring a proven record of regional collaboration and professional development. In 2024, I co-chaired the first ever West Central Chapters Symposium, uniting the seven chapters in a large scale technical event. In 2025, I chaired the symposium, expanding it to 20+ speakers, and introducing a showcase of technical advancement from the industry. My goal is to help other regions replicate this success, increasing collaboration both within regions and across Ontario.

Another priority is to strengthen PEO's relationship with OSPE. By leveraging OSPE's expertise in technical seminars and CPD, chapters can expand offerings and provide more accessible professional development opportunities.

With over 14 years in municipal government, I understand how councils operate and the distinction between governance and operations, fiduciary duty, and accountability. This knowledge will help me contribute effectively to PEO Council's strategic role.

I ask for your support to bring my passion, experience, and vision for change to PEO Council.
