

Dear PEO Member,

Thank you to everyone who has shared their thoughts throughout this election period so far. Your feedback reinforces what I have seen throughout my 16 years of volunteering with PEO: when members feel supported and connected, our profession thrives.

As your Councillor-at-Large, I will focus on three priorities that directly strengthen the member experience and the future of engineering in Ontario.

1. Rebuilding a Modern, Supportive EIT Program

A revitalized Engineer-in-Training program is essential for attracting and retaining the next generation of licence holders. I will advocate for a program that provides clear guidance, structured mentorship, and meaningful chapter involvement, ensuring new graduates feel welcomed, supported, and prepared for licensure.

2. Empowering Chapters Through Collaboration

Chapters are the foundation of member engagement. My experience leading the West Central Region Chapters Symposium, uniting seven chapters to deliver one of the largest PEO chapters, led technical events, and demonstrated what coordinated regional efforts can achieve. I will work to expand shared resources, strengthen regional networks, and help chapters deliver high-quality technical seminars across Ontario.

3. Delivering More Value Through Strategic Partnerships

By strengthening PEO's relationship with OSPE, chapters can access a broader range of technical seminars, CPD opportunities, and subject-matter expertise. This collaboration can enhance member value without increasing volunteer workload or costs.

With over 22 years of professional experience, including 14 years in municipal government and direct work with elected officials, I bring practical governance experience and a commitment to transparent, thoughtful decision-making.

If you believe in a more connected, collaborative, and member focused PEO, I respectfully ask for your support.

I would be honoured to earn your vote.

Sincerely,

Ranjit S. Gill, P.Eng., PTOE, PMP
Candidate for Councillor-at-Large
