

Dear PEO Member,

As voting continues in the 2026 PEO Council Elections, I would like to once again share why I am seeking your support as a Councillor-at-Large.

I bring over **23 years of engineering experience**, and for more than **16 years**, I have proudly volunteered with PEO. During that time, I have served in nearly every leadership role within the Brampton Chapter, including multiple terms as Chair, and contributed provincially through the Chapters Procedures Manual Advisory Group.

Professionally, I currently serve as the **Senior Manager of Infrastructure Planning at the City of Oshawa**, where I work closely with elected officials, advisory committees, and community stakeholders. This experience has strengthened my understanding of governance, accountability, and the responsibility we have to serve the public interest, and I am committed to bringing it to PEO Council.

My priorities remain focused on strengthening our profession and supporting members across Ontario.

A key focus for me is **reinstating and modernizing the EIT program** to better support new graduates while enabling chapters to recruit volunteers and build mentorship networks.

I am also deeply committed to **increasing collaboration between chapters and across regions**. As **Co-Chair of the West Central Chapters Symposium in 2024 and Chair in 2025**, I helped bring seven chapters together to deliver one of the largest technical events in Ontario. This experience demonstrated what is possible when chapters work together, and I want to help replicate this success across the province.

In addition, I believe we must **strengthen PEO's relationship with OSPE** to expand technical seminars, CPD opportunities, and the overall value we provide to members.

I ask for your vote so I can bring my experience, commitment, and collaborative approach to PEO Council.

Sincerely,

**Ranjit S. Gill, P.Eng., PTOE, PMP**  
Candidate for PEO Councillor-at-Large
