

I am seeking election as Councillor-at-Large to continue advancing PEO's modernization journey and to ensure that it becomes an effective and relevant regulator for the future of our profession.

Volunteer Experience

I have served PEO in many volunteer capacities including several director positions within the York Chapter, including Vice-Chair, and then Chair; and currently as the East Central Region Councillor, a position which I have held from 2024 through to 2026. This has provided me with valuable experience with respect to PEO governance, member engagement, and its regulatory obligations.

As Councillor, I have served on the Regulatory Policy and Legislation Committee, the Regional Council Committee, and the Executive Committee. I also chair the East Central Region Congress. In the last two years, Council has moved forward with many key policies, including:

Aligning the licensing framework to conform with the requirements of FARPACTA

- Reviewing, enforcing, and enhancing the CPD program
- Reinstating and developing the EIT program
- Developing and approving of the 2026-2030 Strategic Plan
- Amending O.Reg. 941 to include duty to co-operate with investigations
- Adopting Governance Performance Metrics to strengthen accountability
- Developing and enforcing the Anti-Workplace Violence, Harassment and Discrimination policy

Professional Background

I am a Senior Project Manager at Hatch, coming with experience of more than 12 years in the delivery of complex transit and urban infrastructure projects. I am currently the design manager for the construction of the Rail Carrying Structures and Civil Works as part of the East Harbour Transit Hub. My expertise covers design and construction management, risk governance, and stakeholder collaboration.

As Councilor-at-Large, I will work to strengthen regulatory effectiveness, enhance member engagement, and ensure that PEO remains relevant in a rapidly changing professional landscape to safeguard the public interest.

Thank you in advance for your support. Let's continue the conversation, find me on [LinkedIn](#).
